THE BOARD OF HEALTH

The Wilder Company Keeps Contract.

TO CARRY LEPER FREIGHT

Rescinds Peremptory Resolution With Regard To Chinatown Land.

Wilder's Steamship Company will continue to carry freight and passengers to and from the leper settlement on Molokai as in the past. After a big hullabaloo about the poor service of the Wilder company, in which Superintendent Reynolds of the leper settlement was the chief instigator, the Board of Health asked for bids from transportation companies and yesterday two tenders were opened and read at the meeting of the Board. One was from the Wilder company offering to go on with their service at the same rate as in the past, or about \$803 a month, and another bid was from the Hawaiian Navigation Company, which cut under the figures of the Wilder company a few dollars.

When the bids were read yesterday Dr. Cooper remarked that as there would be but a trifling saving there would be no purpose in making a change. The matter was laid on the table, which means that the Wilder company will go on as usual. A communication was received from S. M. Damon asking that the Hawaiian residents of Moanalua be allowed to bury their dead there as in the past. For many years the natives have been interring their dead on a hill on Mr. Damon's estate but a recent resolution of the Board of Health declared it illegal to bury any one within certain limits except in regular plots. Dr. Pratt told the Board that there were no regular plot holders in the Moanalua graveyard and that the place was about 100 feet from the road.

Attorney General Dole said that the Board must consider the question whether burying there endangered the public health. If it did not the Board had no right to interfere. Dole said the Board could not make regulations in excess of its power.

George W. Smith, a member of the Board, said the Board could not stop any one burying a body in the Moanalua cemetery and therefore it was useless to forbid it. The matter was deferred until a list of the plot holders be obtained, which shelves it entirely.

The following was the report of Dr. Richard Oliver, medical superintendent of the leper settlement on Molokai:

I herewith forward to you my report for the quarter ending December 31, 1900. In the previous quarter we had 7 cases and 1 death from malarial fever. In the last quarter there were 22 cases of the same fever and 2 deaths. For the last 2 months this fever has been confined to Kalaupapa, which is unusual, Kalawao generally taking the lead in the number of these cases. The peculiarity of this fever, which I am glad to say seems to have left us, was its tendency to relapse. The two fatal cases were of relapse. Apart from the epidemic, the general state of health of the settlement has been fair. There have been during the 3 months, 6 births, 4 males and 2 females, and we have had, including those of 6 non-lepers, 49 deaths.

The bathing establishment has been running as usual. The attendance of lepers at the two dispensaries has averaged 24 per diem. And the number of visits paid to homes of lepers has averaged 16 daily.

The following letter was read:

Hakalau, Hawaii, January 11.

The President Board of Health.

Dear Sir: Your letter of instruction concerning new duties of Government physician has been received. In reply I wish to ask the Board to adopt some measures whereby the general public may be informed of the law concerning registration of deaths, births and marriages, and more especially the penalty following, its infraction. I would suggest the printing of notices in the various languages of our polyglot community and have them sent to the deputy sheriff of each district with instructions to post them in conspicuous places.

Unless some such measures are adopted the community, especially the Oriental part of it, will go on dying and being born in the same old informal manner, and it would work more or less harshly on them should the penalty of the law, of which they are ignorant, and which hitherto has never been enforced, be visited upon them.

ARCHER IRWIN, Government Physician for North Hilo District.

Executive Officer Pratt said that he had already ordered such notices printed in Hawaiian, Portuguese, Chinese and Japanese.

A resolution passed some weeks ago disallowing the erection of buildings on the land bounded by Beretania, Nuuanu, River and Kukul streets was amended to read as follows:

Whereas, a large portion of that district or parcel of land situate in Honolulu, Island of Oahu, bounded by Beretania, Nuuanu, Kukul and River streets, is deleterious to the public health in consequence of being low and at times covered or partially covered with water and at all times improperly drained and incapable of effectual drainage and is insanitary and dangerous to the public health; therefore be it

Resolved, That no permit for any building to be erected in said area shall be recommended until the lot upon which said building is to be erected shall be so filled up, if necessary, that the same, with the building to be erected thereon, will not endanger the public health.

The following was the report of the plumbing inspector: I beg leave to submit my semi-monthly report, ending January 15th, 1901, which is as follows:

Number of plans filed, 60.
 Number of permits issued, 60.
 Number of inspections made, 128.
 Number of final certificates, 40.
 Number of sewer connections, 11.
 The only plan refused was one on account of party being unable to do the work properly.

A mellow and pure whisky, Spruance, Stanley & Co's "Kentucky Favorite" and "O. F. C."
